

At the heart of **VOCORI**'s vision is to relief suffering, restore human dignity lost to the clutches of poverty.

We are committed to serve the poor, by empowering them to have access to the basic services. We give hope and opportunity to every child. Children of today are the adults and leaders of tomorrow. To safeguard our societies from collapsing, we must attend to the needs of the children.

1000 children are born each day, the majority of them in developing countries, and many of them are born to poor parents and live in poor conditions.
